Optivate

Optivate Hosting

Your data, fully managed. Your team, finally free.

Built for ophthalmology, not adapted for it.

Move your databases and image files off self-managed servers and into Optivate's secure, fully managed Microsoft Azure environment, managed by the same team that builds your software.

Built on Microsoft Azure

Security monitored 24/7/365

Uptime

99%

Designed so your team can count on access every day.

How long does it take to migrate?

4 to 6 weeks

Typical timeline from kickoff to go-live.

What you hand off to us

- Server hardware & refresh cycles
- OS, database & security patching
- Backups & restore testing
- Storage & capacity planning
- After-hours monitoring & alerts
- Software upgrades & compatibility

Six reasons to move to Optivate Hosting

Core benefits

01/06 Disaster Recovery

Automated, encrypted backups replicated to a secondary Azure region. If the worst happens, our team handles the recovery so you're back up and running fast.

02/06 Business Continuity

No single on-site server to fail. Power outages, hardware failures or a closed office don't take your operation down — your team stays productive from anywhere.

03/06 Performance & Scale

Autoscaling compute and storage tuned for Optivate workloads, with 24/7 real-time performance alerts. Databases and image libraries grow on demand — no hardware to buy.

04/06 Enhanced Security

Encryption at rest and in transit, role-based access, network isolation and audit logging — layered protection that's hard to match in an on-premise server room.

05/06 24/7/365 Cybersecurity

Enterprise-grade security monitoring 24/7/365 by the Optivate security team, with proactive vulnerability management and real-time threat detection and response.

06/06 Latest Technology

Always on current, supported database and platform versions. Get new Optivate features as soon as they ship — no waiting on your own upgrade window.

And the business case gets better

Lower total cost

Swap server purchases, licenses and IT hours for one predictable monthly subscription.

Compliance-ready

Built on Azure's HIPAA, HITRUST, SOC 2 and ISO 27001 attested infrastructure.

One accountable partner

Software and hosting from one team — no finger-pointing, faster support.

Free up your IT staff

Refocus people on patients, customers and projects — not server upkeep.

White-glove migration

1. **Assess** your data, images & integrations
2. **Migrate & validate** with minimal downtime
3. **Manage it for you,** 24/7, from day one
